Z/CAB/3035E

30 Min Fire Rated 2 Door Stand Alone Cabinet

Specifications	
Length	1115mm
Depth	550mm
Height	1980mm
Weight	210kg
Storage Capacity	250 L

This stand alone cabinet is made from melamine, this material has very good overall chemical compatibility. The exterior is then finished with a layer of PVC protection film RAL7035, with RAL1023 yellow edges, the cabinet also comes with safety labelling The cabinet comes with a steel containment sump which sits under the products, the sump is fitted with a perforated steel cover. The cabinet also has 3 steel retention shelves which can be adjusted in 32mm increments The cabinet has self closing doors, these doors can be kept open however they're fitted with a fusible link which breaks at 47ºC allowing the door to automatically close, helping contain whatever is causing the rise in temperature (chemical reaction, fire etc)
