

IBC Sump Pallet with External Fabric Cover

R-BB1C

Product Overview

Z/R/BB1C

Sump Capacity

1100 L

IBC Sump Pallet with External Fabric Cover

Specifications	
Dimensions	1350 x 1760 x 2440mm
Sump Volume	1100 L
Load Capacity	1500 Kg
Weight	119kg
UDL	2000kg
Door Aperature (HxW)	1590 x 1165mm

This is a rugged sump pallet for the spill containment and storage of one IBC (Intermediate Bulk Container) or 4 drums on a pallet. The IBC bund is covered by a steel frame complete with a fabric roof and cover that has a heavy duty roll up door, which makes for easy access into the container. The strong and durable sump pallets come in a bright yellow color and are of a nestable space saving design. In addition, the sump pallet has a removable grid to make cleaning / emptying easier and is suitable for the majority of IBC footprints. The IBC spill pallet is constructed from durable (modified for strength) high density polyethylene (HDPE) and manufactured using a rotational moulding process. These IBC sump pallets are corrosion resistant and suitable for most liquids. Ideal for the spill containment of storing various acids, alkaline solutions, oils and non-flammable chemical substances.
