

IBC Sump Pallet with External Steel Cabinet

R-BB1HCS

Product Overview

Z/R/BB1HCS

Sump Capacity

1100 L

IBC Sump Pallet with External Steel Cabinet

Specifications	
Dimensions	1425 x 1840 x 2320mm
Sump Volume	1100 L
Load Capacity	2000 Kg
Weight	223kg
UDL	2000kg
Door Aperature (HxW)	1590 x 1165mm
Material	low-density polyethylene

This is a secure sump pallet for the spill containment and storage of one IBC (Intermediate Bulk Container) or 4 drums on a pallet. The IBC bund is covered by a steel cabinet with vent louvres in the sides for ventilation. The cabinet has double skin doors and robust locks and hinges to take the knocks and bumps in the everyday workplace. The weatherproof cabinet is fully secure with an internal door lock and has door stays to secure the doors when in use. The spill pallet cabinet has 2 principal benefits, as well as being aesthetically pleasing in bright yellow! The secure nature of the lockable cabinet means you can store an IBC outside and control who has access. The weatherproof roof and cabinet mean rain and leaves etc can't get into the sump. In addition, the sump pallet has a removable grid to make cleaning / emptying easier and is suitable for all standard IBC's. For it's money, I think this is bang on top value!!!
