

Single IBC Bund Sump Pallet with Four Way Entry

R-BB1FW

Product Overview

Z/R/BB1FW

Sump Capacity
1150 L

Single IBC Bund Sump Pallet with Four Way Entry

Specifications	
Dimensions	1340x1230x1090 mm
Sump Volume	1150 L
Load Capacity	1500 Kg
External Dimensions (WxDxH)	1230 x 1330 x 1085mm
Weight	68kg
UDL	1500kg
Material	low-density polyethylene
Colours available	Yellow
Approvals	DIBt approved

This is a rugged sump pallet for the spill containment and storage of one IBC (Intermediate Bulk Container) or 4 drums on a pallet. The strong and durable sump pallets come in a bright yellow colour and feature an integral tray just below the tap to catch drips. This spill pallet has a removable grid to make cleaning / emptying easier and easy siting of the IBC. The grid is made from the same polyurethane and rotationally moulded. The IBC spill pallet is constructed from durable (modified for strength) high density polyethylene (HDPE) and manufactured using an injection moulding process. These IBC sump pallets are corrosion resistant, therefore they cope impeccably against chemical spills and feature integral supporting stands without a grating. Ideal for the spill containment of storing various acids, alkaline solutions, oils and non-flammable chemical substances.
