Sump Volume	1140 L
Load Capacity	3000 Kg
IBC Capacity	2 IBC's
Weight	285kg
UDL	3000kg
Door Aperature (HxW)	1490 x 2365mm
Material	low-density polyethylene

This is a secure sump pallet for the spill containment and storage of one 2 IBC's (Intermediate Bulk Container) or up to 8 drums on 2 pallets. The IBC bund is covered by a steel cabinet with vent louvres in the sides for ventilation. The cabinet has double skin doors mounted on easy glide sliding runners to take the knocks and bumps in the everyday workplace. The weatherproof cabinet is fully secure with an internal door lock. The spill pallet cabinet has 2 principal benefits, as well as being aesthetically pleasing in bright yellow! The secure nature of the lockable cabinet means you can store 2 IBC's outside and control who has access. The weatherproof roof and cabinet mean rain and leaves etc can't get into the sump. In addition, the sump pallet has a removable grid to make cleaning / emptying easier and is suitable for all standard IBC's
