

Twin IBC Sump Pallet with 4 Way Fork Entry R-BB2FW

Product Overview

Z/R/BB2FW

Sump Capacity

1150 L

Twin IBC Sump Pallet with 4 Way Fork Entry

Specifications	
Dimensions	2340x1225x610 mm
Sump Volume	1150 L
Load Capacity	3000 Kg
IBC Capacity	2 IBC's
External Dimensions (WxDxH)	1280 x 2345 x 640mm
Weight	120kg
UDL	2500kg
Colours available	Yellow
Approvals	DIBt approved

This Polyethylene double IBC sump pallet is suitable for the majority of IBC footprints and comes with removable grids. Will fit standard 2 x 1000 litre IBC tanks. The sump pallet base has 4 way access, meaning the forklift pockets are on all sides meaning you get 4 way forklift access on the sump for easy and convenient transportation. The IBC spill pallet is constructed from durable (modified for strength) high density polyethylene (HDPE) and manufactured using a rotational moulding process. These IBC sump pallets are corrosion resistant and suitable for most liquids. Ideal for the spill containment of storing various acids, alkaline solutions, oils and non-flammable chemical substances.
