Material	Steel

This product is a boom deployment device, the device can fit over 20+ metres of booms and provides an easy method of deploying your boom quickly and easily. The boom is attatched to the device so retracting the deployed boom is also quick and easy The product works by using a spindle and a rotating the handle to deploy or retract the boom. it has handles on the side and has rugged wheels on the other, making it easy to maneuver We highly recommend that the plastic pallet box option as the booms material (all plastic) deterioates when exposed to the sun, it also protects the boom from potentail rodent damage
