Specifications	
Overall Depth	1250mm
Overall Width	2100mm
Overall Height	160mm
Weight	180 kg
Load Capacity	5000kg

This ramp is for access into shipping containers for forklifts. The heavy duty construction offers an impressive load capacity of 5000kg. The container ramp surface is chequer plate offering a good level of grip for forklift tyres. The 2 cutouts at the front are for a forklift to pick the ramp up making it easy to move the ramp from container to container, or if the shipping container doors need to be closed. The shipping container ramp for forklift trucks are in a painted finish as standard - blue RAL 5010. The shipping container ramp has an option of a pair of heavy duty 8mm chains each side and D shackles. These ramp chains allow the ramp to be secured to the shipping container safely. The container ramps should be used on flat concrete ground.
