

Oil Only Sump Skimmers - 10 Pack

CN-JH048

Product Overview

Z/CN/JH048

Oil Only Sump Skimmers - 10 Pack

Specifications	
Material	Meltblown Polypropylene
Length	50 cm
Weight	8 Kg per Carton

When oil absorbent pads are not enough to do the job or the oil is in difficult to reach areas then use our oil only skimmers (also known as drain booms). Using the cord attached, simply lower this floating skimmer into any drain or sump. The absorbent boom will absorb oils without taking in water. The skimmers only absorb hydrocarbons and do not retain water. Supplied in packs of 10, these oil only sump skimmers are ideal for soaking up unwanted oil based fluids that collect in drains, sumps, tanks and bilges. Made of highly absorbent meltblown polypropylene these oil only skimmers are suitable for all oil based fluids (including lubricants, fuels and vegetable oil). The skimmers are made from highly absorbent meltblown polypropylene fibre wrapped in strong polypropylene netting as an outer skin. They are white in colour which makes the absorbed oil easier to see. Features of the oil only skimmers include: Manufactured from sonic bonded meltblown polypropylene. Fine fibres allow skimmer to quickly soak up oil.
