Weight	1350kg Approx.
Access Aperture	1395mm W x 2780mm H
Lower Level Clear Space	1350mm
Upper Level Clear Space	1350mm

This bundled cabinet is designed to hold 6 IBCs or 24 drums on 4 pallets, pallet size up to 1.2m square, or a combination of both. The base sump is seam welded from 3mm sheet steel with box and pressed steel ribs for additional strength, giving a sump capacity of 1675 litres. There are 3 pallet channels per IBC or pallet of drums to sit on. The body and shelf framework is formed from structural box section and the outside covered with 2mm pressed sheet steel and benefits from a fully welded strong design. The sloping roof is again pressed sheet steel and braced and fitted with crane lifting points. The 3 easy glide sliding doors are fabricated from 2mm sheet steel and fitted with a robust centre lock with keyed handle to make the bundled container secure. The IBC sump container complies with all current UK regulations for the safe storage of IBCs and drums. Available as optional extras are: - Air vents - Galvanized steel grid mesh so pallet not needed - Galvanized steel pallet channels
