

Modular External 4 IBC Rack COM-SPLCAB-186-GY

Product Overview

Z/COM/SPLCAB/186/GY

Sump Capacity

1350 L (Per Sump)

Modular External 4 IBC Rack

Specifications	
Dimensions	3000x1600x2770 mm
Sump Volume	1350 L (Per Sump)
Load Capacity	2000 Kg per beam / 4000kg in total

This is a strong IBC rack to hold 4 IBCs (Intermediate Bulk Container) or 4 pallets of 4 drums. The IBC rack sits over an integral 1350 litre watertight sump to contain any leakage or spillage from an IBC. the IBC rack is formed from corrugated galvanized sheet steel and has a sliding curtain to make it weather tight (Similar to trailer side curtains). The weatherproof IBC cabinet's roof overhangs the front opening and has a 1.5 degree incline to shed all rainwater. The IBC storage rack and sump has many principal benefits, as well as being aesthetically pleasing, the curtain can be printed with whatever text you want, this could maybe identify what's inside (Fuel, Chemicals etc) or maybe your company name. Curtain printing comes at an additional cost. The IBC Cabinet is lockable with a padlock. The weatherproof roof and cabinet mean rain and leaves etc can't get into the sump. In addition, the sump pallet has a removable grid to make cleaning / emptying easier and is suitable for all standard IBC's
