

Polyethylene Sump Pallet For 4 Drums with Four Way Entry R-BP4FW

Product Overview

Z/R/BP4FW

Sump Capacity

250 L

Polyethylene Sump Pallet For 4 Drums with Four Way Entry

Specifications	
Dimensions	1220 x 1220 x 380mm
Sump Volume	250 L
Drum Capacity	4 x 200 Litre Drum
Weight	32kg
UDL	1500kg
Material	durable low-density polyethylene
Approvals	DIBt approved

This plastic sump pallet is an option for fitting 4 drums on one sump. The 4 drum sump is suitable for everyday rugged use. Constructed from high density polyethylene and manufactured using a rotational moulding process these sump pallets are ideal for storing various acids, alkaline solutions, oils and non-flammable chemical substances. The removable supporting grid allows for easy cleaning. The spill pallet bases are designed with slots at the bottom for easy handling by forklift truck or hand pallet truck. The sump pallet can be accessed from all four sides by a pallet truck or forklift. This range of spill pallets is designed to optimise space and lower transport costs by means of its interlocking design allowing the sump pallets to stack within each other.
