

Polyethylene Sump Cabinet PSC1

R-PSC1

Product Overview

Z/R/PSC1

Sump Capacity

30 L

Polyethylene Sump Cabinet PSC1

Specifications	
Dimensions	420 x 534 x 990mm
Sump Capacity	30 L
Weight	15kg
Shelf Capacity	12kg
Sump Volume	17 L
UDL	12kg

Our PSC range of polythene cabinets can be used for all kinds of general storage of small bottles or drums of liquids or chemicals. The integral sump in the base has a capacity of 30 litres to contain any drips or spills. The rotational moulding manufacturing process uses virgin polythene granules which results in a durable and tough storage cabinet with easy to wipe or clean sides. This storage cupboard has a door fitted with a single lock. 2 removable shelves are supplied as standard. The polythene storage cabinet is suitable for most applications involving the storing of small containers of liquids and ideal in laboratories with a broad range of chemical compatibility.
