Shelf Capacity	52kg
Sump Volume	70 L
UDL	52kg

Our PSC range of polythene cabinets can be used for all kinds of general storage of small bottles or drums of liquids or chemicals. This spill cabinet is full height at 1650mm (5 1/2 foot) high, not easy to appreciate from the photos, and has an.integral sump in the base of 70 litres to contain any drips or spills. The rotational moulding manufacturing process uses virgin polythene granules which results in a durable and tough storage cabinet with easy to wipe or clean sides This storage cupboard has a door fitted with a single lock. 3 removable shelves are supplied as standard - 2 shelves and a base shelf The polythene storage cabinet is suitable for most applications involving the storing of small containers of liquids and ideal in laboratories with a broad range of chemical compatibility
