Material	polyethylene

This storage cabinet in our PSC range of polythene cabinets is specifically designed for a single full size drum or barrel. This spill cabinet has an integral sump in the base of 225 litres to contain any drips or spills. The rotational moulding manufacturing process uses virgin polythene granules which results in a durable and tough storage cabinet with easy to wipe or clean sides This storage cupboard has a door fitted with 2 locks, and a removable deck grid. There are no intermediate shelves The polythene storage cabinet is suitable for most applications involving the storing of single drums and ideal in laboratories with a broad range of chemical compatibility
