This storage cabinet in our PSC range of polythene cabinets has a sump capacity to contain a single full size drum or barrel, but it also has an intermediate height removable plastic shelf so smaller drums and containers can be safely stored. This spill cabinet has an integral sump in the base of 225 litres to contain any drips or spills. The rotational moulding manufacturing process uses virgin polythene granules which results in a durable and tough storage cabinet with easy to wipe or clean sides This storage cupboard has a door fitted with 2 locks, and a removable deck grid. There is 1 single intermediate shelf The polythene storage cabinet is suitable for most applications involving the storing of single drums and ideal in laboratories with a broad range of chemical compatibility
