

Polyethylene Sump Cabinet PSC5

R-PSC5

Product Overview

Z/R/PSC5

Sump Capacity

100 L

Polyethylene Sump Cabinet PSC5

Specifications	
Dimensions	740 x 920 x 1520mm
Sump Capacity	100 L
Weight	55kg
Shelf Capacity	52kg
Sump Volume	100 L
UDL	300kg Base Pallet

This storage cabinet in our PSC range of polythene cabinets has a reduced sump capacity of 100 litres making it suitable for smaller drums and barrels, and the cabinet has an intermediate height removable plastic shelf so smaller drums and containers can be safely stored. This spill cabinet has an integral sump in the base of 100 litres to contain any drips or spills. The rotational moulding manufacturing process uses virgin polythene granules which results in a durable and tough storage cabinet with easy to wipe or clean sides. This storage cupboard has a door fitted with 2 locks, and a removable deck grid. There is 1 single intermediate shelf. The polythene storage cabinet is suitable for most applications involving the storing of single drums and ideal in laboratories with a broad range of chemical compatibility.
