Premium Sump Pallet for 1 Drum

Specifications	
Dimensions	800x800x435 mm
Sump Volume	205 L
Drum Capacity	1 x 200 Litre Drum

The containment tank is suitable for collecting flammable liquids (GHS categories 1 – 3) and water pollutants (GHS categories 1 – 4). It can be moved by forklift or by hand, with the wheel and handle Kit (optional); The removable galvanized grid allows for easy cleaning, this comes with the product. The spill pallet bases are designed with slots at the bottom for easy handling by forklift truck or hand pallet truck. This range of spill pallets is designed to optimise space and lower transport costs by means of its nesting design allowing the sump pallets to stack within each other.
