No. of Containers (Horizontally)	12 x 205 L Drums
Colour	Green RAL 6029
Weight	700kg

This sump pallet is from our range of internal spill pallets for safely storing and handling 205 litre drums. Constructed of 3mm sheet steel and watertight this spill pallet is designed to hold 12 drums horizontally across 3 levels with a back stop bar to prevent drums from being pushed off the back. The sump is fully seam welded with a capacity 1125 litres complying with all current UK regulations. The sump pallets are painted with a high build, quick drying primer/topcoat paint specifically designed for use directly on to metal or bare steel, this paint contains zinc phosphate anti-corrosive pigments and is applied with a minimum dry film thickness of 75 microns.
