

Polyethylene Drip Tray 70L R-ST70-BASE

Product Overview

Z/R/ST70/BASE

Capacity
70 L

Polyethylene Drip Tray 70L

Specifications	
Dimensions	804x608x315mm
Sump Volume	70 L
Weight	9.5kg
UDL Capacity	150kg

The ST range of plastic drip trays are lightweight and conveniently sized for a plethora of uses. This drip tray has legs which raise the sump of the ground allowing forklift or pallet truck access. The rotational molding manufacturing process uses virgin polythene granules which results in a durable and tough drip tray. The black polyethylene grid is available as an optional extra if you are buying online now. The polythene drip tray is suitable for most applications involving the storing and emptying of small containers of liquids and ideal in laboratories with a broad range of chemical compatibility.
