Mobile Work Stand with Door

Specifications	
Dimensions	725 x 640 x 1075mm
Base Sump	45 L
Top Sump	18 L
Shelf Sump	8 L
Weight	27kg
Sump Capacity	45 L

This mobile work stand is ideal for the storage of absorbent pads and booms and can be sited in the workplace close to any handling or liquid decanting. The work stand has a 45 litre internal base sump to contain leaks or spills from small containers inside. Additionally, the top table top features a sump of 18 litres and there is a removable shelf tray with a sump capacity of 8 litres. This PWC4 polythene mobile work stand has a locking door and is ideal for the storage of spill absorbent pads etc. The rotational moulding manufacturing process uses virgin polythene granules which results in a durable and tough storage cabinet with easy to wipe or clean sides. This storage work stand has 1 removable shelf tray as standard. The wheels have rubber tyres in a 2 fixed and 2 swivel + brake configuration. The push handle is moulded into the cabinet for strength.
