Recycled Drip Tray with Grid 65L
R-TT65G

Product Overview

Z/R/TT65G

Capacity
65 L

Recycled Drip Tray with Grid 65L

Specifications	
Dimensions	550 x 1000 x 150mm
Sump Volume	64.5 L
Weight	3.5kg
Material	recycled polypropylene for broad chemical compatibility

This open plastic drip trays are lightweight and conveniently sized for a general use. The rotational molding manufacturing process uses recycled polyethylene granules going a very small way to saving the planet, but the right direction! This results in a durable and tough drip tray. The tray is low profile with a shallow depth and has a grid deck, 2 separate half sections The polythene drip tray is suitable for most applications involving the handling and pouring of small containers of liquids and ideal in laboratories with a broad range of chemical compatibility
