Recycled Polythene Drip Tray 11.5L
R-TT9

Product Overview

Z/R/TT9

Capacity
11.5 L

Recycled Polythene Drip Tray 11.5L

Specifications	
Dimensions	400 x 790 x 50mm (40mm from top of grooves)
Sump Volume	11.5 L
Weight	1.2kg

This open plastic drip trays are lightweight and conveniently sized for a general use. The rotational molding manufacturing process uses recycled polyethylene granules going a very small way to saving the planet, but the right direction! This results in a durable and tough drip tray. The tray is low profile with a shallow depth and open so there is no grid. There are addition ribs moulded into the base The polythene drip tray is suitable for most applications involving the handling and pouring of small containers of liquids and ideal in laboratories with a broad range of chemical compatibility
