Recycled Polythene Drip Tray 65L
R-TT65

Product Overview

Z/R/TT65

Capacity
65 L

Recycled Polythene Drip Tray 65L

Specifications	
Dimensions	550 x 1000 x 150mm
Sump Volume	65 L
Weight	2kg
Material	recycled polypropylene and

This open plastic drip trays are lightweight and conveniently sized for a general use. The rotational molding manufacturing process uses recycled polyethylene granules going a very small way to saving the planet, but the right direction! This results in a durable and tough drip tray. The tray is low profile with a shallow depth and open so there is no grid The polythene drip tray is suitable for most applications involving the handling and pouring of small containers of liquids and ideal in laboratories with a broad range of chemical compatibility
