Recycled Polythene Drip Tray 100L
R-TT100

Product Overview

Z/R/TT100

Capacity
100 L

Recycled Polythene Drip Tray 100L

Specifications	
Dimensions	1000x1000x120mm
Sump Volume	100 L
Weight	4kg
Material	recycled

This open plastic drip trays are lightweight and conveniently sized for a general use. The rotational molding manufacturing process uses recycled polyethylene granules going a very small way to saving the planet, but the right direction! This results in a durable and tough drip tray. The tray is low profile with a shallow depth and open so there is no grid The polythene drip tray is suitable for most applications involving the handling and pouring of small containers of liquids and ideal in laboratories with a broad range of chemical compatibility
