Multi-Use Drum Stand

Specifications	
Dimensions	645 x 760x 730mm
Weight	10 kg
UDL	1250kg

This is a multi-purpose drum holding stand. The nifty design can hold a standard full size 205 litre drum horizontally, or flip it upside down, and it can hold smaller drums and containers. A very versatile design! The strong and durable drum holding stand are moulded from durable (modified for strength) high density polyethylene (HDPE) and manufactured using an rotational moulding process. These drum sump pallets are corrosion resistant and therefore they cope with chemical spills
